## In the Frame

A snowdrift frames Monument Valley's West Mitten Butte after a winter storm in 2015. The valley, which is on the Navajo Nation and straddles the Arizona-Utah border, often sees light snowfall in winter, but unusually heavy snow in 2015 led to road and school closures in the area. *For more information, call Monument Valley Navajo Tribal Park at 435-727-5874 or visit [www.navajonationparks.org](http://www.navajonationparks.org).*
